Always there.

Telehealth Program

**Frequently
Asked
Questions**

What is MDLIVE?

With MDLIVE, you can access a board-certified doctor via secure online video, phone or the MDLIVE app – anytime, anywhere, 24/7/365. MDLIVE MDLIVE is a low-cost, convenient alternative to urgent care urgent care visits or waiting days to get an appointment with your primary care doctor for non-emergency medical conditions. Our doctors can diagnose your symptoms, prescribe non-narcotic medication (if needed), and send e-prescriptions to your nearest pharmacy.*

Is MDLIVE appropriate for every medical condition?

No. MDLIVE is designed to handle non-emergency medical conditions and can often substitute for a doctor’s office, urgent care center or emergency room visit for common conditions like the flu or pink eye. However, it is not intended to replace your primary care doctor or to be used in life-threatening emergencies.

You should not use MDLIVE if you are experiencing a medical emergency. In case of a life-threatening emergency, dial 911 immediately.

What are the most common conditions you treat?

Our doctors can diagnose and treat many non-emergency conditions, including:

- Acne
- Allergies
- Cold / Flu
- Constipation
- Cough
- Diarrhea
- Ear problems
- Fever*
- Headache
- Insect bites
- Nausea / Vomiting
- Pink eye
- Rash
- Respiratory problems
- Sinus problems
- Sore throats
- Urinary problems / UTI*
- Vaginitis
- And more

How do I sign up for MDLIVE or activate my MDLIVE account?

You can easily sign up by using one of the following methods:

1. Download the MDLIVE app from the iOS App Store or Google Play and follow the signup instructions.
2. Visit www.247mdaccess.com and click “Activate Now” in the middle of the page.
3. Call us at 1-888-674-2490 and use group code 247DOCTOR.

When can I start using MDLIVE?

You can start using MDLIVE as soon as you sign up or activate your account. Sign up is completely free. Once you have an MDLIVE account, you can browse doctor profiles, view available appointment times, and schedule an appointment with the doctor of your choice.

If you are required to pay an appointment fee or insurance copay, you will only be asked for your credit card information after you make an appointment with a doctor. Want to go one step further? Be sure to fill out your medical history profile to better prepare your MDLIVE doctor for your appointment.

When is MDLIVE available?

MDLIVE phone consultations are available around the clock, even holidays. Once you log in, you'll have the option to select a doctor who is currently available, schedule an appointment, or talk to the next available doctor on call.

Where is MDLIVE available?

MDLIVE is available anywhere in the United States**. We make sure that each doctor shown to you when you log in is fully licensed to practice medicine in your state.

How much does it cost to use MDLIVE?

If you're receiving MDLIVE as part of a group benefit, you may not be required to pay at all. You can cancel your appointment and receive a full refund, provided that you cancel at least 24 hours before your appointment time. MDLIVE accepts most major credit and debit cards.

Can MDLIVE be accessed on mobile devices?

Yes, you can access MDLIVE from your mobile device's browser or by downloading the MDLIVE app from the iOS app store or Google Play.

Who are the MDLIVE online doctors?

MDLIVE's online doctors are U.S. board-certified, have on average 10+ years of experience. They can treat over 50 routine medical conditions by mobile app, online or by phone. When you log in and request an appointment, you will only be shown doctors who are licensed to practice in your state.

We're proud to partner with excellent doctors, and we make it a priority to provide you with a top-notch experience. Our doctors receive rigorous, ongoing training to diagnose and treat medical conditions remotely and using uploaded images. Following each appointment, our members are given a survey to evaluate their doctor. The results are analyzed and reviewed for quality assurance and used as part of our continuous improvement process. Randomly selected appointments are also reviewed by our internal medical board.

Can an online doctor prescribe medication as part of an MDLIVE appointment?

Yes. If the MDLIVE doctor believes medication is needed, he or she can write a prescription for non-narcotic medications (i.e. no controlled substances), which can be sent directly to your nearest pharmacy. All prescriptions are fully compliant and include all required information.

Is MDLIVE safe and private?

Yes, MDLIVE is a safe way to receive treatment for a variety of symptoms. If for any reason your MDLIVE doctor believes your condition should not be treated using telehealth, he or she will refer you to seek care in person. MDLIVE is fully compliant with HIPAA (the Health Insurance Portability and Accountability Act) and will only share your information with your selected doctor and pharmacy.

What system requirements do I need for MDLIVE video conferencing?

To use video conferencing, you need:

- A PC running Windows® XP or newer, or a Mac running OSx 10.6 (Snow Leopard) or newer.
- A high-speed Internet connection
- A webcam with a resolution of at least 1.3 megapixels
- A microphone (most webcams already have microphone built in)

After you set up your account, you will be able to use a simple online simulation to test your configuration and check if you are ready for a virtual consultation. To see a doctor using our mobile app, simply download the MDLIVE app from the iOS App Store or the Google Play store, sign in or complete the signup process using the app.

Can MDLIVE doctors and therapists order prescription refills?

Yes, our doctors can provide up to a 30-day supply of a prescription refill at your current dosage for things like birth control pills, certain antidepressant medications and other medications that are not restricted. Your MDLIVE doctor will need to confirm with your primary care doctor that the medication has been prescribed for you, and that you have been taking it for at least 30 days. This is very convenient for times when you can't reach your primary care doctor to renew your refills, your medication is lost or stolen, or you're between health insurance plans.

At this time, MDLIVE doctors can only provide you a prescription refill if you:

- Have exhausted all attempts to get the refill from the prescribing doctor
- Are age 18 and older
- Have a reasonable explanation for your need for a refill
- Have been taking the requested medication for at least 30 days

Frequently Asked Questions

Your MDLIVE doctor can provide a refill up to three times within a 12-month period, but for no more than two consecutive months.

Does MDLIVE provide doctor's notes to excuse absences from school or work?

Yes. If your MDLIVE doctor recommends that you or your child take time away from work or school to recover from your illness, he or she can provide a note to excuse up to three days of absence. If you have already missed work or school due to your illness, your MDLIVE doctor can provide a note to excuse up to two missed days before you had your MDLIVE visit.

To receive a doctor's note to excuse your absence, simply request this from your doctor during your MDLIVE visit. Your doctor will send you a link through your secure messaging center to download and print your note.

I have a question that isn't listed here. Can you help me?

Don't see your question? Don't worry. Just call us at +1 (800) 400 MDLIVE (6354) and choose Option #1. We have highly trained health service specialists standing by to take your call, 24/7/365.

MDLIVE Prescription Policy

When your medical condition calls for a prescription, our doctors can send an e-prescription straight to your local pharmacy. Please note that for your own safety and to comply with state pharmacology laws, the following restrictions apply:

- Temporary prescription refills (2-3 days) may be issued only when the patient is able to demonstrate an existing prescription.
- MDLIVE doctors are unable to write prescriptions for more than a 30-day supply. Patients with chronic illnesses should visit their primary care doctors or other specialists for extended care.
- MDLIVE physicians will not prescribe DEA-controlled substances, non-therapeutic drugs, and certain other drugs which may be harmful because of their potential for abuse. For a current list of DEA controlled substances, visit <http://www.deadiversion.usdoj.gov/schedules/>.
- MDLIVE does not guarantee that a prescription will be written; that will be determined by the physician based on your clinical presentation. However, you are always guaranteed quality healthcare.

*Some state laws require that a doctor only prescribe medication in certain situations and subject to certain limitations.

*MDLIVE physicians may not treat any children with urinary symptoms. Parents/guardian will be required to complete a different medical history disclosure form for children under the age of 36-months prior to making an appointment with an MDLIVE physician. Children under 36 months who present with fever must be referred to their pediatrician (medical home), child-friendly urgent care center or emergency department for clinical evaluation and care.

**MDLIVE services are limited to only phone consultations with the ability to prescribe in Iowa, Louisiana, and Texas. California permits both phone and video consultations with short term prescription limitations. Telehealth services are currently not available in Idaho. Please check back soon.
